WORK EXPERIENCE

Civil Aviation Authority of the Philippines
Computer Programmer | *2023 - Present*

- Consistently achieved excellence by delivering error-free and fully functional code, ensuring optimal performance of systems and applications.
- Spearheaded the design of intuitive system interfaces, enhancing user experience and facilitating seamless interactions with applications.
- Successfully met and exceeded project deadlines, demonstrating efficiency in project management and contributing to the timely delivery of high-quality outputs.
- Completed comprehensive training in junior project management, acquiring valuable skills in project planning, execution, and team coordination.

Centrive Technologies Inc.
Junior Operations Manager | *2022 - 2023*

- Successfully managed and streamlined backlogs of IT projects and proposals, contributing to improved project timelines and operational efficiency.
- Played a pivotal role in programming tasks, demonstrating proficiency in JavaScript and PHP development, and actively contributed to project development.

PROJECTS

Certinize: Blockchain-enabled E-Certificate Issuance and Verification System
An e-Certificate issuance and verification system which integrates blockchain applications such as smart contracts, NFTs, Wallet Private Keys, etc. as its cutting-edge form of mid-to-high-end technological security and data integrity.

Online Airport Project Database
Streamlined project archiving web application that functions to import existing projects of the organization and stores it directly to its local server. This also enables real-time store and retrieve files.

CAAP Online Height Clearance Permit/Height Limitation
A streamlined permit/certification application used as a requirement for all proposed PTTIs that are fifty (50) meters or higher above the elevation of the ground. It uses Laravel framework for the submission process and JavaScript for the critical area mapping.

59th DGCA Official Website
Official website for the DGCA Conference to be used on October 2024 by international delegates from the Asia-Pacific Region.

Educational

Manuel S. Enverga University Foundation
Bachelor of Science in Information Technology
Cum Laude - Latin Honors
2019 - 2023

SKILLS

Languages

HTML   JavaScript
